# Maintenance Kit

Instructions for Use

Perfect for daily use or as the next step after your Treatment Kit, our Maintenance Kit helps keep your smile strong and healthy with nano-hydroxyapatite, an elevated pH, and fluoride for lasting strength and protection.

**Follow these instructions for best results.**

---

### **1: Rinse with Maintenance Rinse**

- Use Maintenance Rinse daily until product is gone.
- Swish 10 mL in mouth for 60 seconds.

### **2: Brush with Pro Gel 5000**

- Apply a thin ribbon of Pro Gel 5000 and brush once daily in place of your regular toothpaste until product is gone.
- Avoid eating or drinking for 30 minutes.
